

ADIL FARASH

ODOO DEVELOPER

+91 7902846483 afarash19@gmail.com Vadakara, Calicut, India [linkedin](#) [github](#) [portfolio](#)

PROFESSIONAL SUMMARY

Odoo Developer and Python Developer with hands-on experience in Odoo ERP customization, module development, and database migration. Experienced in Odoo ORM, XML views, QWeb reports, PostgreSQL/MySQL, and front-end integration using HTML, CSS, and JavaScript. Demonstrated background conducting client site visits, delivering live module demonstrations, resolving production issues, and addressing VAPT security requirements. Strong understanding of business workflows, SDLC, debugging, and collaborative development.

PROFESSIONAL EXPERIENCE

UL TECHNOLOGY SOLUTIONS UL-Cyberpark, Calicut MAY, 2024 – Present

Python / Odoo Developer

- Developed and customized Odoo ERP modules based on business and client requirements.
- Conducted on-site client visits, demonstrated live product walkthroughs, and gathered technical requirements.
- Handled direct client issue resolution, debugging, and continuous production support for live ERP systems.
- Resolved critical security vulnerabilities and compliance issues flagged during Vulnerability Assessment and Penetration Testing (VAPT).
- Successfully migrated custom Odoo modules and databases from version 12 to version 17.
- Created and modified XML views, forms, tree views, action menus, and custom search parameters.
- Worked with Odoo ORM for backend business logic and query execution.
- Integrated front-end components with backend Python logic.
- Managed and optimized PostgreSQL/MySQL databases to resolve latency and improve query performance.
- Participated in full software development life cycle (SDLC).

CYBROSYS TECHNOLOGY, Kakkancheri November, 2023 – April, 2024

Python / Odoo Developer Trainee

- Trained extensively in Odoo framework and Python backend development.
- Built custom ERP modules and understood complex business workflows.
- Worked on QWeb report generation and module customization.
- Collaborated with team members using Git version control.

ADETIVE SOLUTIONS, Chennai November, 2022 – January, 2023

Front-End Development Intern

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Converted UI designs into functional web interfaces.
- Performed testing and debugging for cross-browser compatibility.
